I'd say buy this ONLY IF NEEDED! The items are extremely op and should be used for post game or what I did and use them only when I didn't feel like grinding. Other than that I stuck to regular items. You need to unequip them from the characters every time you get them though. The accessories like the Umio face mask are funny though. Fallen Neptune is my favourite because it's just a tiny Nep that fell into someone's head. You can only see her waist and below plus that bit a fanservice which her you know whats are showing at the proper camera angle.. Uh, it has it's different endings and I find it weird and full of mystery, but it's a game that you pour your heart and soul into trying to unlock the true meaning. There is probably multiple endings and im surprised. Are you trying to make us think through the door?. Why all the hate? I thought it was a decent shmup, altho lower resolutions, still looked pretty good to me, a decent challenge and variety. It is a simple shmup, but for \$2 regular price its decent. I got it for 75% off and judging from the reviews, was going to skip this one. But honestly its not bad, runs smoothly on my rig, have a hard time thinking this could be hard on any modern rig in the last 10 years. There are graphical settings, but no resolution settings, which I do find odd, but not as pixelated as half the shmups on STEAM tho.. Fun game overall. For now it looks like the variable that provides the challenge is time. Fun for scenarios but not freebuild. The concept is outstanding and the trade system works very well. In addition, its fun to work within the trading system. I would love to see more challenge around logistics by using tankers or oil rigs and having the ability to own fleets of both. That would introduce an entirely new overhead cost that would be fun the manage not to mention the challenge of seeting routes. Also, I dont know too much about oil drilling but I have to think there are more specialized buildings. I would love to see additional buildings. Employee issues like hiring, firing, assinging duties, shifts, etc...would be interesting. Again, it would add another level of financial management to the game.

Again, overall its an outstanding game, fun to play and easy to learn. It provides enough challege right now to be worth the money. I anticipate future patch updates or add ons.. Pass the whiskey.. The third and final volume of Corona Blossom wasn't as good as I was expecting, to be honest. There's a lot of fan service, and the story definitely felt unfinished to me.

A lot of things were left without a proper explanation, important things that caught our attention on the previous games and on this one too. Still, I somewhat enjoyed the visual novel and its very ending, and I hope that the developers can make an additional chapter to explain what was left unfinished.

6/10. As usual, the art and BGM are great, dialogues are funny and enjoyable, etc. But like I already said, I think that this final volume had a lot of potential that wasn't explored. Get it on a sale if possible to complete your collection.

I love the concept of the game, there aren't a lot of Harry Potter like VR games so I was excited to try this one. After playing it for about 10 minutes I was pretty disappointed. The game completely lacks content, the only thing you do is use the same spell (press trigger) over and over again to shoot the same monster over and over again until you die and repeat it all.

This doesn't mean though that the game has no potential, if the developers add a story mode, unlockable spells, wands, new maps it can actually be a pretty interesting game. The graphics look fine and the spell from the wand looks quite cool.

Even though the game has potential I would definitely wait with buying this one, as it's just not worth it, I'd say closer to 0 in its current state. (Maybe not even worth any money as of right now)

EDIT:

After checking the Unity asset store I found out that this game is actually completely an asset flip.. This version contains little more than the free version. There are many more applications out there that offer so much more. Several are free. And offer hardware support for both MIDI and HID (though HID support tends to mainly be supported in "pro" versions).. Hilarious. Simply FART-tastic little game.. Is this worse than horse armor? I'm not sure.. I actually really enjoyed this game but wish they would let you increase the resolution and it takes a bit of getting used to aiming with the mouse.. The game was intense, I thought I would never get to finish playing the whole game. Graphics were right to suit PC.

Dating App Level is LIVE (plus updates):

Hey Everyone,

We have now gone live with our "Dating App" level. This level is totally different from the other levels in the game. If you are into Tinder dating I'm sure you'll get a lot out of it. Even if not, it's one of our most interesting levels and was the hardest for us to produce. I hope you like it!

In other news, we are still working on Portuguese (br) and German subtitles and I hope to have those working by early next week!

Regards,

Rich. Update on Localisation and Level Unlock:

Hi Guys, we continue to update the game daily. We found some errors in the subtitles and a few in the game. Totally my fault in not managing the file formats and encoding of all the translations. The translation is 86,000 words so is a massive job. We are continuing to fix existing languages.

German, Portuguese (pt-br) and French languages will be added in the coming week.

Good news: the "Dating App" AKA Tinder level will unlock on the 19th of September. This level is our 2nd biggest and was the 2nd most expensive to make after Level 1. It's totally different and I hope you like it :)

Finally, I just added a 6 minute preview of our documentary, you can see it here:

https://store.steampowered.com/app/932743/Super_Seducer_2_Documentary_The_Dark_Side_of_Seduction/

I'll post another update next week when we have added more languages and the bonus level goes live.

Thanks for your support so far and patience with these localisation issues :)

Rich

. German and Portuguese-br subtitles are live!:

We are live with German and Portuguese-br. Sorry for the delay in getting these into the game! Now we will be testing to see that the subtitles show for each option, this is a manual process and we'll continue to push live updates as we make fixes.

By the end of the week we should have all the languages in a very solid state. We will also be making other more general non-language fixes.
